

TOYOTA

LEAD THE WAY

HIACE

THE BEAT OUR CITY MOVES TO

There is a rhythm to our city, alive and composed by the people moving to its colourful energy. The Hiace is here to make sure we keep up with the tempo of the ever-present musical hustle and bustle. Purpose-built around the backbone of Toyota's hallmarks, Quality, Durability and Reliability - to become South Africa's most desired taxi. It has the exclusivity and comfort that people queue up for.

Whether it's the 14- or the 16-seater, here is a minibus that has the power to drive you in comfort, style and safety. The Hiace is here to turn up the volume and keep our people moving to the groove that is South Africa.

THE RANGE:

The Hiace Ses'fikile 2.7/ petrol 16-seater
The Hiace Ses'fikile 2.5/ diesel 16-seater

And introducing...
The Hiace bus 2.5/ diesel 14-seater

The mover for the shakers

The Hiace has been given a modern polish to keep you shining through the city's ever-changing backdrop, while a redesigned heat panel and outside temperature display keeps you in touch and in tune with your surroundings. We've also redesigned the front bumper and radiator grille, the headlamps and rear combination lamps to ensure that everybody sees you coming.

The Hiace Ses'fikile 16-seater has maximised its interior space, so that all passengers are comfortably seated with ample cushioning and support. Passengers can easily stay refreshed throughout the day with two front cup holders in the 16-seater and 12 cup holders in the 14-seater bus. Both models come equipped with durable PVC flooring to prevent passengers from slip-ups.

INTERIOR DASH

15 PASSENGERS** CAN BE SEATED COMFORTABLY

Homeward bound safe and sound

Along with all the mandatory taxi recapitalisation safety specifications, the Hiace ensures that drivers and passengers are afforded the maximum protection with ABS (Anti-Lock Braking System), roof and window emergency exit, driver and front passenger airbags, central locking and safety belts for every passenger.

Solid front suspension with an independent double wishbone and stabiliser, as well as a rigid axle and leaf spring* suspension at the rear is a foundation that you can rely on for excellent road holding.

No matter what the weather holds or how tricky the road surfaces may be, power steering, front heaters to demist the window and front window wipers with washer and intermittent function work together to keep your journey forever in view.

* Available on 2.5D GL Bus 14-seater.

** Available on 2.7 16-seater Taxi and 2.5 16-seater Taxi.

DRIVER AND FRONT PASSENGER AIRBAGS

WINDOW EMERGENCY EXIT

With you for the long run

The 16-seater Ses'fikile has the option of a 2.7/ four-cylinder VVT-i petrol engine (Variable Valve Timing - intelligent) or a 2.5/ D-4D intercooled common rail turbo-diesel engine, both boasting low fuel consumption and reduced emissions, providing a satisfying and economical drive experience.

The 14-seater bus offers a 2.5/ engine with diesel-common rail fuel injection and 5-speed manual transmission to effortlessly keep people moving and arriving at their destinations from sunrise to sunset.

2.7 VVT-i PETROL ENGINE

VVT-i (Variable Valve Timing - intelligent) engine technology combines outstanding drivability with low fuel consumption and reduced emissions.

2.5 D-4D DIESEL ENGINE

Common rail technology allows for the precise measurement and injection timing of fuel. The result? More power, better fuel consumption, less noise and less pollution.
